About us

Green Décor

a passionate dream

INTRODUCTION :

Green Decor is a single window organisation for all the Engineering, Procurement & Construction (EPC) Landscape Solutions. It creates landscape plans of flora & fauna to suit clients' tastes and needs and executes them on a turnkey basis involving civil construction and other works on barren lands to convert them into aesthetic gardens, parks, large holistic green belts for environmental protection and pollution abatement. Consequential activity includes maintenance of the plants, trees, gardens and landscaped areas on AMC basis.

Our team includes all landscape professionals, related to various fields e.g. Design and landscape planners, Civil contractors, Marble & Stone work, GRC, Stamp Concrete contractors and personnel, Wood and Steel Fabrication Work, Tensile, Electrical & Solar contractors, Fountains & MEP experts, Horticulture and Irrigation, Storm water works, Water harvesting etc

Green Decor has a complete and competent team of Civil Engineers, Horticulturists, Electrical Engineer, Electricians, Plumbers, trained workers and Supervisors etc.

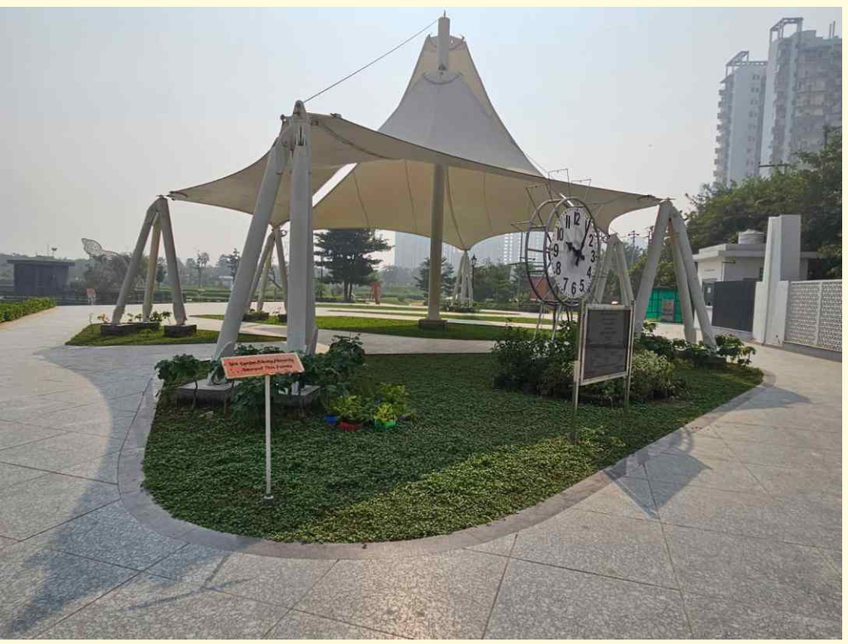

FOUNDER'S DETAILS:

Green Décor is the brain child of Satendra Tyagi, who pursued and developed his childhood passion " love for Plants and Nature " as his lifestyle and full time occupation by setting up his business of Landscape Development comprising of both, Hardscape

(Civil Works) and Softscape (Horticulture). Where Today's Worldis making self sustainability difficult, due to environmental crisis, Satendra Tyagi has fully updated himself on Permaculture and the Miyawaki Method of Restoring the natural vegetation on degraded lands. He avidly shares his knowledge of Multicrop & Multilayer processes with the Society, thus outreaching and serving the Society to tackle the environmental issues – Regenerating Forests, Restoring water tables, Slope stablelising in the Mountains and hills and diverting Societies mind from use of Non organic – Fertilizers, Pesticides & Fungicides etc. to Organic, whereby the Society gets rid of after effects of toxic chemicals, and leads a better& healthier life.
